

The Esplanade
DOTA & OBOP
 Version 7.1

7:00

To 7:30 ->

Layout for one of two 40' by 60' camp shade structures.
Requirements for each structure (maybe this is overkill):

- (4) 20'x30' tarps
- (860') airplane wire
- (20) stakes
- (4) 11' corner posts
- (9) 9' support posts

⊙ 11' post ideally buried approx 3' deep (need post hole)

○ 9' post buried 1' deep (need shallow post hole)

Notes

- Notes about maps
 - It's natural to put phonebooth at corner on Playa, visible from down 7:00
 - We want to share access road with neighbor on left (Pangea): property line down the middle
 - Back access road should jog to hide shortcut from passersby on Amnesia
 - Cars can probably be moved to offsite space DOTA plans to grab on other side of Amnesia from Monkey Puzzle. But this would reduce area shields generator.
 - Probably a lot more people will want cars by their tents

 - Map 1 shows DOTA dome on corner
 - Map 2 shows DOTA dome in center of frontage

 - Map 1 shows Steve dome in center of camping
 - Map 2 shows Steve dome at bottom of camping

 - The above are independent decisions that can be made
